
CREMLINplus

"Work Package 8 & Work Package 9 Updates meeting"

21 December, 2020

Objectives: *this meeting is devoted to update the Russian Partner Research Infrastructures (RIs) participating in the CREMLINplus Transnational Access programme about the current state of the project activities, to present the first preliminary outcomes of the Survey on Access and the impact of the Coronavirus on the project plans and to introduce the upcoming activities in 2021. It will also be the occasion for the Representatives of the Russian RIs to introduce their Infrastructures to each other and to share the state of preparation of their facility in view of the Call for Access for European scientists (foreseen in early 2022).*
